

### A cluster-based game, Coin Quest!

Coin Quest is an avalanche, cluster-based video slot with a 5x5 symbol grid. The game is played in an ancient Aztec temple setting where treasure seekers are offered a chance to win up to 10,000 times their bet! A collect meter awards a random number of coin & wild symbols. Normal cluster wins generate a wild in a random location, and cluster wins with coin symbols generate a new coin with the aggregate multiplier value of cluster coins.

The game holds three bonus games; Coin Quest Free Spins, Free Spins, and Super Free Spins, awarding 5 respectively 8 Free Spins. The bonus games can be both re-triggered and upgraded. In addition, extra Free Spins can be awarded, and each bonus game holds different features; accumulating coins, a persistent collect meter, and a progressive win multiplier.

In response to changing player preferences when it comes to gameplay, the Slotmill games have two integrated excitement enhancing features; "Burst Mode" and "Fast Track". Burst Mode is an enhanced auto-play with a play-through of two game rounds per second, and Fast Track offers players the option to get directly into the bonus features of the games. Both Burst Mode and Fast Track have proven immensely popular among players.
